

# ETFE 2,5mm<sup>2</sup> 50x0,25 t.p.c. black 0,6/1KV 150°C OD=2,8+/-0,1mm

## Construction:

- 1. tin plated copper strands 2,50 qmm (50x0,25 mm, semi concentric)
- 2. Insulation made of ETFE (7Y), outer diameter 2,80 +/- 0,10 mm

## Electrical Properties:

Operating temperature: -90°C to +155°C

Operating voltage: U/U<sub>0</sub> 0,6/1 KV

Test voltage: 4000 V

## Application:

- in heat appliances and fire-resistant installations
- plants in industrial atmosphere
- in the chemical industry sector
