

FEP/FEP 7G10mm² np. blck. 1000V 205°C OD=20mm+/-

Construction:

- Core: Fp 10mm² (80np) 1000 V
- Conductor: 10mm² (80x0,4mm) nickel plated copper
- Insulation material: Fp-FEP (Green/yellow,black numerical printing)
- Diameter: 5,95 +/- 0,15mm
- Twisting: middle: one black core
layer: 6 cores (gn/ye, bk 2-6)
- Sheath: Fp-FEP
- Outer diameter: Nom. 20 mm +/-

Technical Data:

- Test voltage (U eff): 5,0 kV Core
2,5 kV Core/Core
- Operating voltage(U eff): 1000 V
- resistance at 20°C: max. 1,9 Ω/km
- Temperature range: from -100°C to +205°C

The roundness of the cable cannot be guaranteed due to the asymmetric construction.

Cable according to EU - 2011/65/EU (RoHS 2)
