

## Silicone SCA/RCA-SSP-O 2x0,50mm<sup>2</sup> , 180°C, Thermal compensating line

### Electric properties:

- Operating temperature of insulation: -25°C to +180°C
- Test voltage: eff. 500 V

### Construction:

1. Compensation alloy for PtRh-Pt, type SCA/RCA (IEC 60584-3), 2 x 0.50 mm<sup>2</sup> (16 x 0,20 mm)
2. Core insulation: silicone rubber (2G), diameter 1.75 mm, colours orange (+) and white (-)
3. Sheath: silicone rubber (2G), diameter 3.40 x 5.10 +/- 0.20 mm, orange colour
4. Protective braid made of galvanized steel wires, o.d. 4.20 x 5.90 +/- 0.20 mm, orange tracer yarn

### Applications:

- Compensation cable SCA/RCA (IEC) for temperature sensors
