

Thermal compensating cable KX 2x0,5 JXCJ-DIN NICRNI (-grey,+red) AD=5,8mm PVC-Cu-PVC

Electric properties:

- Operating temperature of insulation: -50°C to +105°C
- Test voltage: eff. 500 V

Construction:

1. Thermo extension alloy NiCr-Ni, type KX (IEC 60584-3), 2 x 0.50 mm² (16 x 0,20 mm)
2. Core insulation: PVC, diameter 1,95 +/- 0,05 mm, bunched
3. Polyester protective tape
4. Screen braid made of tin plated copper wires, overlap > 85%
5. Outer sheath: PVC, outer diameter 5,80 +/- 0,20 mm

Colour code:

- Colours of cores: grey (+) and white (-), colour of sheath: green
