

Y-JZ/-OZ/-JB 2,50 mm² to 35,0 mm²

- Conductor: bare copper-strand, fine-strand
 - Construction: acc. to VDE 0295 class 5 respectively IEC 60228 cl. 5
 - Cores: Special-PVC
 - Marking Y-JZ/-OZ: black cores with consecutively numerical inscription with protective conductor
green-yellow (from 3-core) in the outer layer
 - Marking Y-JB: Coloured cores acc. to VDE 0293-308 with protective conductor
green-yellow (from 3-core) in the outer layer
 - OZ = without protective conductor
 - Cores: with optimum lengths of lay stranded in layers
 - Outer sheath: Special-PVC
 - Sheath colour: grey RAL 7001
 - Nominal voltage U₀/U: 300 / 500 V
 - Test voltage: 4.000 V
 - Insulation resistance: at +20°C ≥ 20 MΩm x km
 - Bending radius: 15 x cable diameter
 - Temperature range:
stationary -30°C to +70°C
moved -5°C to +70°C
 - Non-Inflammability: acc. to IEC 60332-1
