

FEP AWG 16/19 +205°C

Construction

- Conductor: AWG16 (19x0,287mm) nickel plated copper
- Insulation material: FEP
- Diameter: (2,6 +/- 0,15)mm

Technical Data

- Test voltage (U rms): 5,0 kV AC (Sparktest)
- Operating voltage (U rms): 1000 V AC
- Resistance at 20°C: max. 15,6 Ω/km
- Bending radius: 7,5 x D (fixed installation)
15 x D (free movement)
- Temperature range: -90°C to +205°C

Properties

- Cable according to EU-2011/65/EU (RoHS).
- Produced under our E-File Number E472542.
