

FEP 0,75 qmm SO 24x0,20mm +205°C

Construction

- conductor: Tin plated copper strands 0,75 qmm 24x0,20 mm), semi-concentric
- core isolation: FEP (6Y), outer diameter 1,85 +/- 0,05 mm

Electric properties

- Test voltage: 5000 V
- operating voltage: 1000 V
- Operating Temperature: -90°C bis +205°C

Single-Core Cable with high electrical, chemical and thermal qualities
