

SiHCSi-O 2x0,75qmm

Construction

- Flexible Conductor made of tin coated copper class 5 standard EN 60228
- Silicone rubber insulated conductors
- Braided, with tinned copper wires Ø 0,15 mm - Polyester tape placed between conductors and braid
- External sheath made of Silicone Rubber

Technical Data

- Operating voltage: 300/500 V
- Test voltage in water: 2.000 V
- Temperature range: +180°C

Section qmm	Composition	Conductor Ø mm	Insul. Thickn. mm	Sheath Thick. mm	External Ø mm	Resist. max to 20°C	total weight	articlenumber
