

Glass fiber / mica wire AWG24 27% n.p.c. 720V 450°C white

Construction:

- conductor: 27 % n.p.c. (7x0,203 mm) max. 0,62 mm
- Tape: Mica tape
- Braid: Glass-fibre + Impregnation natural 2,25 +/- 0,15 mm

Technical data:

- Test Voltage (Urms): 2,5 kV AC (Sparktest)
- Operating Voltage (Urms): 720 V AC
- Resistance at 20°C: max. 106,41 Ohm/km
- Bending radius: 10 x D fixed installation
- Temperature Range: up to +450°C
- Weight: 11,7 kg/km

Remark:

- RoHS Compliant (2015/863/EU)
- When heating up for the first time, smoke may form and high temperature exposure may cause a brownish discolouration of the cable.
