

FEP with UL 1333 150°C 300V 1,0 qmm 32x0,2mm

Construction

- Tin plated copper strands (ASTM B 33), cross section 1,0 qmm (32x0,20 mm, semi-concentric)
- FEP insulation, wall thickness 0,33 mm, outer diameter 1,90 +/- 0,10 mm

Technical Data

- rated voltage: 300 V
- Rated temperature: +150°C
- test voltage: 3000 V

Characteristics

- Single-core cable with high electrical, chemical and thermal qualities

Articlenumber: UL13331010
