

Thermo extension cable PVC KX (IEC) 2x0,50mm² , 90°C

Electric properties:

- Operating temperature of insulation: -30°C to +90°C
- Test voltage: eff. 1,000 V

Construction:

1. Thermo alloy for NiCr-Ni, type KX (ANSI MC 96.1), 2 x 0.50 mm² (16 x 0,20 mm)
2. Core insulation: PVC , diameter 2,15 mm +/- 0,05mm, cores bunched, colours yellow (+) and red (-)
3. polyester tape, drain wire: tin plated copper strands 0,75mm² (24 x 0,20mm), aluminium tape
4. Outer sheath: PVC, diameter 6.00 +/- 0,30mm, colours of sheath: yellow

Applications:

- Thermo extension cable KX (IEC) for temperature sensors
