

## PFA AWG 16/19 n.p.c. UL 10362

### Construction

- Conductor: AWG16 (19x0,30mm) nickel plated copper AWM 758
- Insulation material: PFA (51Y)
- Diameter: 2,10 +/- 0,10mm
- wall thickness: 0,254 mm

### Technical Data

- Test voltage: 2000 V
- Operating voltage: 600 V
- Operating temperature: -190°C to +250°C
- Printing: AWM 758 UL10362 +250C 600V E472542

Single-core cable with high electrical, chemical and thermal qualities

**Article number: UL10362161**
