

PFA AWG 20/19 n.p.c. UL 10362 (Copy)

Construction

- Conductor: AWG20 (19x0,20mm) nickel plated copper
- Insulation material: PFA (51Y)
- Diameter: 1,60 +/- 0,10mm
- wall thickness: 0,254 mm

Technical Data

- Test voltage: 2000 V
- Operating voltage: 600 V
- Operating temperature: -190°C to +250°C

Single-core cable with high electrical, chemical and thermal qualities

Article number: UL10362181
