

Thermoline KX - 2x1,50mm² - TXCT

Construction:

- Thermo alloy NiCr-Ni, 2x1,50mm² (48x0,20 mm)
- Core insulation: FEP (6Y), diameter 2,15 mm +/- 0,10 mm, cores bunch
- Polyester protective tape
- Screen braid made of tin plated copper wires
- Outer sheath: FEP (6Y), outer diameter 5.60 +/- 0,20 mm

Technical specifications:

- Operating temperature of insulation: -50°C to +205°C
- test voltage: eff. 500 V

Colour code:

- Colours of cores: yellow (+) and red (-), colour of sheath: yellow
