

Silicone SCA/RCA-SSP-O 2x1,50mm² , 180°C, Thermal compensating line

Electric properties:

- Operating temperature of insulation: -30°C to +180°C
- Test voltage: eff. 500 V
- bending radius: 15 x cable diameter

Construction:

1. Compensation alloy for PtRh-Pt, SCA/RCA (IEC 60584-3), 2 x 1.50 mm² (48 x 0,20 mm)
2. Core insulation: silicone rubber (2G), diameter 2.70 mm, colours orange (+) and white (-)
3. Sheath: silicone rubber (2G), diameter 4.40 x 7.20 +/- 0.20 mm, colour orange
4. Protective braid made of galvanized steel wires, o.d. 5.20 x 8.00 +/- 0.20 mm, orange tracer yarn

Applications:

- Compensation cable BC (IEC) for temperature sensors
