

FEP Shielded vz, 10,00mm², 600V, + 150°C

Electric properties

- Operating temperature: -90°C to + 150°C
- Rated voltage: 600 V, Test voltage: core 3,4 kV, core-braid 5,0kV

Construction

- bare copper strands 10,00 mm² (80 x 0,40 mm), Resistance at 20°C max. 1,820 Ohm/km
- Core insulation made of FEP, diameter 5,95 +/- 0,15mm
- PTFE Folie
- Braid made of tin plated copper wires, overlap > 87%
- Sheath made of FEP, Outer diameter 7,70 +/- 0,30 mm, colour according to customer
- Einzeldraht: 0,200 mm
