

Silicone UL 3122 200°C VW-1 FT1

Construction

- Conductor: tin coated copper
- Core insulation: Silicone compound acc. to UL 758
insulated with fiberglass braid
- Marking: AWM - STYLE 3122 - 200°C 300V - I-A/B-200°C 300V-FT2

Technical Data

- Test voltage: 2.500 V
- Operating voltage: 300 V
- Temperature: -50°C to +200°C

AWG	Construction max.mm	Insulation Ø mm	Inside Ø mm	Outside Ø mm	weight kg/km	Articlenumber
